

OPERATION GUIDE

- 1. Charging Power Bank:** The Power bank is designed with digital battery percentage display. While charging make sure the power bank reaches 100% full charge. Once fully charged ensure to remove the adapter safely.
- 2. Charging digital devices:** To charge any digital device, connect the correct cable from power bank to the device, once connected the smart phone/tablet device will indicate the power bank has been connected.

NOTES

1. Please use the power adapter (5V output) of cell phone or digital device to charge the power bank. We recommended the adapter with at least 5V-2.1A or computer USB port.
2. Make sure the input voltage of your digital products fits the output voltage of the power bank.
3. Please remove the adapter after power bank is fully charged.
4. Do not drop, disassemble, open crush, bend, deform, puncture, shred, microwave, incinerate, paint, or insert foreign objects into this power bank.
5. Do not put this product into liquid, fire or high temperature environment.

PACKAGE CONTENTS

- 1X Power Bank
- Type-C Charging Cable
- Length: 1:30cm
- User Manual

ACCESSORIES

- Length: 1×30cm
- User Manual

FEATURES

- With Digital Display
- Battery Cell: Li-Polymer
- Battery Capacity: 3.7V, 20000 mAh
- Output Rated Capacity: 12600mAh
- Output Dual USB Output, 5V/2.1A (Max)
- Input: Type-C/Micro USB
- Wireless Charging: 5W
- Easy charge for all Smart Phones, Tables, etc.
- Over charge protection and 1ms short circuit protection
- Compact and Fashion design, light weight and portable, easy to carry
- Effectively protect power bank and digital devices as built-in advanced power management IC to control and regulate temperature, voltage, and current
- Life time: Cycle more than 500 times

USB Port: Output 1	5V-2.1A Output
USB Port: Output 2	5V-2.1A Output
